THE RAISING OF AMERICA
EARLY CHILDHOOD AND THE FUTURE OF OUR NATION

www.raisingofamerica.org
We all want what’s best for our children.

So what can—and should—we do as a society to ensure all our babies get a strong start?

*The Raising of America* documentary series explores the science of how our earliest environments literally shape our developing brains.

It links the investments we make in young children and families today to how strong, prosperous, and dynamic the U.S. will be tomorrow.

Produced by California Newsreel with Vital Pictures
