Strategy Session: Maximizing BARHII Impact at Regional Solutions – CASA and Rise Together Bay Area

The [runaway cost of housing](#) and [stark increases in income equality](#) are now widely accepted as problems in the Bay Area and are driving the launch of two large regional initiatives designed to tackle them:

- [CASA](#), the committee to house the Bay Area, has convened big city mayors, county elected officials, city councilors, advocates, and technical specialists to design a new regional housing strategy that “swings for the fences” and addresses the “magnitude of the crisis”.
- [Rise Together Bay Area](#) has convened funders, social service provider, and public health staff from almost every county to cut poverty by 50%.

BARHII has multiple seats at each table. We are convening and staffing the equity kitchen cabinet for CASA, BARHII members serve on the Power of Nine Committee, and BARHII staff are joining the regional Steering Committee for Rise Together Bay Area.

This work session will focus on how we use the power of [public health’s 10 essential services](#) to realize the power of this two initiatives for the region.
